Siddhartha Chilukuri

Corpus Christi, TX | +1 (361) 288-5043 | siddhartha.chilukuri.193@gmail.com
LinkedIn | GitHub | Teaching Portfolio

Professional Summary

Mathematics and Statistics Educator with a strong foundation in supporting core secondary mathematics instruction, quantitative reasoning, and statistics. Proven ability to translate complex concepts into an accessible, engaging curriculum for diverse learners. Uniquely equipped to lead and expand district initiatives in AP Statistics, Quantitative Reasoning, and the Elements of Data Science, while deeply committed to building student confidence in foundational mathematics. Brings extensive experience in curriculum modernization, educational technology integration, and student-centered learning.

Licenses & Certifications

Texas Educator Certification (Alternative Pathway) | Texas Teachers of Tomorrow *Expected [July 2027]*

- Exams: **TX PACT 735** (Math Grades 7-12) – Passed | **TExES Content Exam 235** (Math Grades 7-12) – Scheduled (May 2026)

AI for Educators | Microsoft *Expected [Aug 2026]*

Education

Master of Science – Data Science | *Texas A&M University-Corpus Christi (TAMUCC), USA* | **GPA 4.0** *Expected [May 2026]*

Bachelor of Engineering – Electrical and Electronics Engineering (EEE) | *Osmania University (OU), India* | **GPA 3.60** *Graduated [June 2022]*

Technical & Instructional Skills

Learning Management Systems (LMS): Canvas, Blackboard (Course management, rubric design, automated grading, student communication)

Instructional Technologies: TI-Graphing Calculators, Jamovi, MS Office Suite

Pedagogical Competencies: Curriculum Design, Differentiated Instruction, Classroom Management, Data-Driven Instruction, Project-Based Learning.

Data Science & Programming: Python, R, SQL, MATLAB, Tableau, Power BI, Git/GitHub

Teaching & Curriculum Experience

Lead Statistics Lab Instructor & Curriculum Developer (Graduate Research Assistant)
Department of Mathematics & Statistics, TAMUCC | Corpus Christi, TX, USA *May 2025 - present*

- Spearheaded the fully funded instructional redesign of a core statistics lab course serving 400+ students annually.
- Authored and implemented 9 complete lab modules, utilizing real-world datasets to bridge theoretical math with applied data science.
- Delivered in-person instruction across multiple lab sections, supporting 50+ students and translating statistical concepts into clear, visual, and application-based lessons.
- Transitioned 100% of the lab curriculum from costly proprietary software to open-source Jamovi and R, significantly improving student accessibility and equity.
- Managed the master Canvas course, standardizing rubrics, instructional pacing, and digital resources for a team of teaching assistants.
- Trained and mentored peer educators on effective instructional delivery and educational technology integration.
- Maintain office hours at the Math Learning Center (MLC), tutoring undergraduates in College Algebra, Business Math, Business Calculus, Statistics for Life, Geometry, and Linear Algebra.

Graduate Teaching Assistant | *Department of Mathematics & Statistics, TAMUCC | Corpus Christi, TX, USA.* *Aug 2024 – May 2025*

- Instructed 150+ students across multiple lab sections (Statistics and Calculus-I&II), building foundational quantitative reasoning and mathematical modeling skills.
- Facilitated weekly office hours and targeted tutoring sessions, successfully identifying learning gaps and differentiating instruction for diverse learners.
- Evaluated and graded 300+ assignments per semester, providing rapid, individualized feedback to correct mathematical misconceptions.
- Integrated MATLAB, Excel, and Python into coursework to build early data literacy and analytical skills for non-STEM majors.

Math Tutor | *Osmania University Library, Osmania University* | *Hyderabad, India* *Jun 2019 – May 2022*

- Provided intensive 1-on-1 and small-group tutoring for 45+ undergraduates weekly in foundational mathematics (Algebra, Calculus) and physical sciences.
- Developed stepwise, visual learning modules that simplified complex mathematical theorems into manageable, sequential steps.

Additional Professional Experience

Data Analyst – Vexen Soft Services & Solutions | *Hyderabad, India* *Jun 2022 – Oct 2023*

- Applied data visualization techniques (Tableau, Power BI) to analyze learning outcomes and support data-informed decision-making in training programs. Collaborated with project leads to generate data-driven reports on learning outcomes, assessment metrics, and participant engagement.

Leadership & Community Engagement

Student Ambassador | *Office of Student Research & Innovation (OSRI), TAMUCC* *Jun 2024 – Dec 2025*

- Represented *OSRI* during campus tours and student events, assisting prospective students in understanding campus resources and research opportunities.
